AI Knowledge Profile – Sanjana Dissanayake

Personal Information

Full Name: Liyana Arachchige Don Vidusha Sanjana Dissanayake
Preferred Name: Sanjana Dissanayake
Gender: Male
Date of Birth: 17 April 2002
Nationality: Sri Lankan sinhala
Address: 172, Ganahena, Meegahthenna, Sri Lanka
Email: sanjanadissanayake22@gmail.com
LinkedIn: www.linkedin.com/in/sanjana-dissanayake-b04963302
GitHub: https://github.com/sanjanadissa
Facebook: https://web.facebook.com/sanjana.dissanayaka.52
Interests/Hobbies: gaming

Professional Summary

Sanjana Dissanayake is a Computer Science undergraduate at the University of Kelaniya, Sri Lanka, with a strong interest in Full-Stack Development, Artificial Intelligence, Machine Learning, and Open Source Technologies.

He has practical experience building modern web applications, real-time systems, and scalable full-stack platforms using technologies such as React, ASP.NET Core, Spring Boot, PostgreSQL, and TypeScript.

Sanjana actively contributes to the technology community through leadership roles in the FOSS Community at the University of Kelaniya and IEEE student branch University of Kelaniya, organizing technical programs and promoting open-source learning among students.

He has participated in several hackathons, designathons, and research symposiums, achieving multiple recognitions including Champion at KelaniXtreme 2025 and being a Top 20 Finalist at the IX'25 Designathon.

His interests lie in combining AI, modern web technologies, and open-source ecosystems to build impactful software solutions and contribute to the developer community.

Education

University: University of Kelaniya, Sri Lanka
Faculty: Faculty of Computing and Technology
Degree: Bachelor’s Degree in Computer Science
Specialization Pathway: Artificial Intelligence
Current Year of Study: 3rd Year Undergraduate
Current GPA: 3.75 / 4.00

Focus Areas:

Artificial Intelligence
Machine Learning
Natural Language Processing
Software Engineering
Full-Stack Web Development

Advanced Level Education
School: D. S. Senanayake College, Colombo
Stream: Mathematics Stream
Year: 2021
Results: Mathematics – A | Physics – B | Chemistry – B

Ordinary Level Education
School: D. S. Senanayake College, Colombo
Year: 2018
Results: 8 A passes

Primary Education
School: Meegahathenna Primary College
Grades: Grade 1 – Grade 5

Leadership & Community Involvement

FOSS Community – University of Kelaniya
Sanjana is an active member and leader within the Free and Open Source Software (FOSS) Community at the University of Kelaniya.

Current Role
Secretary
FOSS Community – University of Kelaniya
Responsibilities include:

- Coordinating technical events and workshops
- Managing community communication
- Supporting open-source learning initiatives
- Organizing educational programs and tech meetups

Previous Role
Treasurer
FOSS Community – University of Kelaniya

Responsibilities included:

- Managing financial operations
- Budget planning for community events
- Sponsorship coordination

School Leadership
Treasurer
Red Cross Society
D. S. Senanayake College

Secretary – FOSS Community, University of Kelaniya (Current)
Treasurer – FOSS Community, University of Kelaniya (Previous)
Treasurer – Red Cross Society, D. S. Senanayake College

Sanjana actively organizes technical programs, workshops, and open source initiatives. He supports the development of student technology communities and promotes knowledge sharing in areas such as Linux, open source tools, and modern development technologies.

Projects

CodeMart — Full-Stack Project Marketplace
CodeMart is a full-stack web platform designed as a marketplace where developers can buy and sell software projects.
The platform enables developers to share their work, collaborate with others, and monetize software solutions.
Key Features

- Secure authentication using JWT and Google OAuth
- Real-time marketplace browsing
- Payment integration using Stripe
- User profiles with reviews and ratings
- Responsive modern UI
- RESTful API architecture

Technology Stack
Backend

- ASP.NET Core (C#)
- Entity Framework Core

Frontend

- React 18
- TypeScript
- Vite

Database

- PostgreSQL
- Supabase

Security & Authentication

- JWT

- Google OAuth 2.0

Payment

- Stripe API

Whisper — Real-Time Web Chat Application

Whisper is a secure real-time messaging platform designed for private communication between users.

Key Features

- OTP-based authentication
- Real-time messaging using WebSockets
- Secure JWT protected routes
- Profile image upload using Cloudinary
- Responsive UI

Technology Stack

Backend

- Java
- Spring Boot
- Maven

Frontend

- React
- TypeScript
- Tailwind CSS

Database

- PostgreSQL

Communication

- WebSockets

Email Service

- Gmail SMTP

Nexus — Centralized Project Planning Platform

Nexus is a project management platform designed to centralize project planning and collaboration for teams.

The project focuses on improving workflow efficiency, task coordination, and team collaboration.

This research project was presented at:

Faculty of Computing and Technology Students Research Symposium (FCTSRS) 2025

University of Kelaniya

Achievements

Champion (1st Place)

KelaniXtreme 2025

Organized by IEEE Student Branch, University of Kelaniya

Top 20 Finalist
IX'25 Designathon
Organized by IEEE Student Branch of IIT

Semi-Finalist
Hackventure 1.0
Team: Luminati

Certifications

AI/ML Engineer – Stage 1
SLIIT
Topics Covered:

- Machine Learning
- TensorFlow
- Natural Language Processing
- Computer Vision
- Artificial Neural Networks

Prompt Engineering 101
KodeKloud

Linux for Beginners
KodeKloud

C# Certification
freeCodeCamp

HackerRank Certifications

- Python (Basic)
- Problem Solving (Basic)
- C# (Basic)

Skills

Programming Languages

- C#
- Java
- Python
- TypeScript
- JavaScript
- SQL

Web Development

- React.js
- ASP.NET Core
- Spring Boot
- Vite
- Tailwind CSS
- REST API Development

AI & Machine Learning

- Machine Learning
- Natural Language Processing
- TensorFlow
- Artificial Neural Networks

Databases

- PostgreSQL
- SQL

Tools & Technologies

- Git
- Linux
- WebSockets
- JWT Authentication
- Google OAuth
- Stripe API
- Supabase
- Cloudinary

Programming Background

Programming Experience Started: 2022
Languages Spoken: English, Sinhala

Professional Interests

Sanjana is particularly interested in the following areas:

- Artificial Intelligence
- Machine Learning
- Full-Stack Web Development
- Open Source Software
- Distributed Systems
- Real-Time Applications
- Developer Communities

Personal Mission

Sanjana aims to build impactful software systems that combine AI, scalable web architectures, and open-source technologies, while also contributing to the growth of the developer ecosystem in Sri Lanka through education, collaboration, and innovation

#Community Engagement & Events

Sanjana actively contributes to the technology community by organizing and participating in technical programs.

Notable involvement includes:

- Organizing Open Dev Summit '25
- Coordinating Linux learning programs
- Supporting open-source community initiatives
- Participating in hackathons and designathons

He believes strongly in knowledge sharing, open-source collaboration, and strengthening the Sri Lankan tech ecosystem.
